Environment

La nostra è una terra fortunata.
Ours is a very fortunate Region.
Notre région est une terre riche.

La nostra è una terra fortunata. Qui sono nati celebri architetti e capaci artigiani, raffinati pittori e scultori, insigni musicisti e compositori. In ogni luogo c'è una bellezza creata dall'abilità e dal genio dei nostri Antenati. Nel 2019 le nostre Colline del Prosecco di Conegliano e Valdobbiadene sono state dichiarate Patrimonio dell'Umanità UNESCO. La ricerca del bello e dell'armonia è una nostra dote naturale.

Our is a very prosperous Region. Here many famous architects and skilled artisans, fine artists and sculptors were born. Everywhere you go, you can find the beauty created by the skill and genius of our ancestors. In 2019 the Prosecco Hills of Conegliano and Valdobbiadene were declared a UNESCO World Heritage Site. The search for beauty and harmony is our natural.

Notre région est une terre riche. Architectes célèbres et artisans capables, peintres et sculpteurs raffinés sont nés ici. Dans chaque endroit, il y a une beauté créée par l'habileté et le génie de nos ancêtres. En 2019, les collines du Prosecco de Conegliano et Valdobbiadene ont été déclarées site du patrimoine mondial de l'UNESCO. La recherche de la beauté et de l'harmonie est une qualité naturelle pour nous.

Concept - Design - Made 100% in Italy

Ogni prodotto è progettato, concepito e realizzato totalmente in Italia per assicurare un elevato standard qualitativo.

Design and concept 100% made in Italy

Every product is designed and realized completely in Italy to ensure a high quality standard, with a unique technological know-how, pursuing a handcrafted ability combined with highly flexible and adaptable structures.

Design et concept 100% made in Italy

Chaque produit est projetée, conçus et réalisée totalement en Italie pour assurer un élevé standard qualitatif, avec un know-how technologique unique, en poursuivant une capacité artisanale combinée aux équipements hautement flexibles et polyvalentes.

Standard qualitativi d'eccellenza.
Aderire ai più alti standard qualitativi internazionali, garantisce prodotti progettati secondo i migliori criteri di funzionalità, ergonomia e design, consegne sicure e rapide e montaggi efficienti.

Excellence quality standard

Joining the highest Internationals quality standard shall ensure products designed by the best functionality, ergonomics parameters; safe and fast deliveries and efficient assembly.

Standard qualitatifs d'excellence

Adhérer au plus élevés standard qualitatifs internationaux, assure produits conçus selon les meilleurs critères de fonctionnalité, ergonomie et design, livraison sûres et rapides et assemblages efficientes.

S®

Ecologia e ambiente

Cosa significa eco-sostenibile? Sentiamo spesso parlare di eco-sostenibilità, ma in molti, hanno un' idea ancora molto vaga di cosa significa eco-sostenibile nello specifico. Eco-sostenibile o eco-friendly, consiste in una serie di comportamenti compatibili con l'ambiente circostante in quanto non ne usurpano le risorse. Chi sceglie di aiutare l'ambiente e quindi di essere eco-sostenibile, grazie ad una serie di piccole azioni giornaliere come ad esempio, ridurre gli sprechi, riciclare e riutilizzare, si contribuisce alla salvaguardia del pianeta riducendo l'accumularsi rifiuti nell'indifferenziato.

What does environmentally sustainable mean? We often hear talks about environmentally sustainable, but lots of people still do not have a clear idea about what environmentally sustainable means. Environmentally sustainable or eco-friendly, consist of a series of behaviors compatibles with the surrounding environment since they shall not encroach the resources. People who choose to help the environment and so to be environmentally sustainable, thank to a series of little daily actions like, cut down on waste, recycling and reuse, contributes to protection of the Earth reducing accumulation of mixed waste.

Qu'est-ce que cela signifie écologique? Nous entendons souvent parler d'écologique, mais dans de nombreux, ont un' idée vague de ce qu'est écologique. Écologique ou eco-friendly, consiste en une série de comportement compatibles avec l'environnement en tant que n'em-piètent pas les ressources. Qui choisit d'aider l'environnement et ensuite d'être écologique, grâce à une série de petites actions journalières comme par exemple, réduire les gaspillages, recycler et réutiliser, on contribue à la sauvegarde de la Terre en réduisant l'accumuler des déchets mixtes.

partizioni

Dividere lo spazio per razionalizzare e facilitare il lavoro. La ricerca e il desiderio di innovazione hanno portato Mobil Office Furniture a creare un sistema di proposte capaci di soddisfare ogni esigenza progettuale ed estetica. Identificare, distribuire, aggiornare lo spazio secondo l'evoluzione del lavoro singolo o di gruppo personalizzando le mansioni, favorire la comunicazione o la privacy. Le partizioni garantiscono soluzioni di arredo avanzate e facili "da abitare".

Divide the space to make your working life easier. Research and a desire for innovation have led Mobil Office Furniture to create a series of furnishing solutions to suit every aesthetic and design style. Characterise, arrange and update your space to suit the evolving requirements of individual workers or teams, to allow for personalised workflows and favour either communication, or privacy. Partitions give you advanced, easy-living furnishing solutions.

Diviser l'espace pour rationaliser et faciliter le travail. La recherche et le désir d'innovation ont conduit Mobil Office Furniture à créer un système de propositions capables de répondre à tous les besoins de conception et d'esthétique. Identifier, distribuer, mettre à jour l'espace en fonction de l'évolution du travail individuel ou de groupe en personnalisant les tâches et favoriser la communication ou la vie privée. Les partitions garantissent des solutions d'ameublement avancées et faciles à «vivre».

16

La ricerca di innovazione ha portato a creare un sistema di partiizioni con spessore 30 mm costituite da lastre monovetro temperato spessore 10 mm /12mm o in stratificato 5+5mm o 6+6mm con foglio interno PVB da 0,38mm. Sono previste anche pannellature cieche spessore 22mm in classe E1 a bassa emissione di formaldeide. Uno spintore permette un'escursione terra/soffitto di +/- 20mm.

I montanti ed i profili in alluminio sono ridotti al minimo per creare continuità nei frontali.

Our search for innovation has led to the creation of a new system of partitions with a thickness of 30 mm, made from 10 mm / 12 mm single-pane tempered glass sheets, 5+5 mm laminate or 6+6mm panes with an internal PVB layer (0.38 mm). Blind panels are also available, with a 22mm thickness in class E1 (low formaldehyde emissions). The pusher bar allows overfloor/overhead travel of +/- 20mm.
The aluminium uprights and profiles are minimised, to create continuity on the front panels

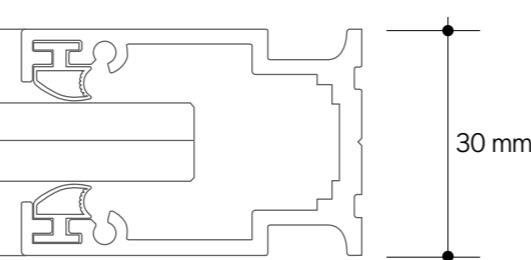

La recherche d'innovation a conduit à la création d'un système de cloisons d'une épaisseur de 30 mm, constituées de plaques mono-vitre trempé d'une épaisseur de 10 mm/12 mm ou en stratifié 5+5 mm ou 6+6 mm avec feuille intérieure PVB de 0,38 mm. Des panneaux aveugles d'une épaisseur de 22 mm, en classe E1 à faible émission de formaldéhyde, sont également prévus. Un pousseur permet une excursion sol/plafond de +/- 20 mm.

Les montants et les profilés en aluminium sont réduits au minimum pour créer une continuité dans les façades.

Tecnica e cura del particolare. Delicate trasparenze, montanti verticali ridotti al minimo sono segni ove ogni elemento è ridotto alla sua essenza e il sapiente inserimento del colore è un ulteriore elemento caratterizzante e personale.

Technique and attention to detail. The fine transparencies and slender uprights are hallmarks of this design, in which each element is reduced to its essence. The skilful use of colour is another characteristic and highly personal feature.

Technique et soin du détail. Transparencies délicates, les montants verticaux réduits au minimum sont des signes où chaque élément est réduit à son essence et l'insertion judicieuse de la couleur est un autre élément caractéristique et personnel.

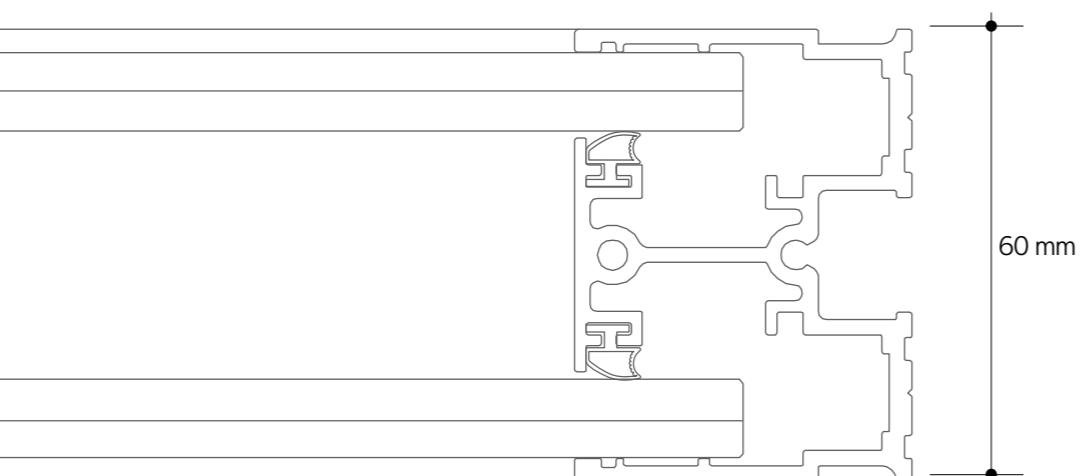

bivetro P60

36

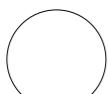

Adattabilità progettuale alle esigenze dello spazio e di chi vi lavora sono le basi del progetto bivetro di spessore 60mm, costituito da doppia lastra in vetro temperato spessore 10mm/12mm o in vetro stratificato 5+5mm o 6+6mm con foglio interno PVB da 0,38mm. Sono previste anche doppie pannellature cieche spessore 22 mm in classe E1 a bassa emissione di formaldeide. Uno spintore permette un'escursione terra/soffitto di +/-20mm. I montanti ed i profili in alluminio sono ridotti al minimo per creare continuità nei frontali.

The ability to adapt to the needs of the space and the workers is the basis for the 60mm dual-pane design, consisting of a double plate of tempered glass (10mm/12mm), 5+5mm laminated glass, or 6+6mm laminated glass with an internal PVB layer (0.38 mm). There are also 22 mm double blind panels in class E1, with low formaldehyde emissions. The pusher bar allows an overfloor/overhead travel of +/-20mm. The aluminium uprights and profiles are minimised, to create continuity on the front panels.

L'adaptabilité de la conception aux besoins de l'espace et de ceux qui y travaillent sont les bases du projet Bivetro d'une épaisseur de 60 mm, constitué d'une double plaque de verre trempé de 10 mm/12 mm d'épaisseur ou en verre feuilleté 5+5 mm ou 6+6 mm avec feuille intérieure PVB de 0,38 mm. Des doubles panneaux aveugles d'une épaisseur de 22 mm sont également prévus dans la classe E1 à faible émission de formaldéhyde. Un pousseur permet une excursion sol/plafond de +/- 20 mm. Les montants et les profilés en aluminium sont réduits au minimum pour créer une continuité dans les façades.

mobilo office furniture

Integrazione tra casa e ufficio in un arredo univoco. Una struttura modulare perfetta che dialoga con gli elementi della parete e si riflette allargando lo spazio all'infinito. Un ambiente dal sapore domestico nel contesto lavorativo attuale, iperconnesso e smart.

Integrate home and office with a seamless design. A perfectly modular structure that communicates with the partition elements and expands the space to infinity. Bring that sense of home into the modern, hyper-connected and smart workplace.

Une intégration entre la maison et le bureau dans un mobilier univoque. Une structure modulaire parfaite qui dialogue avec les éléments de la cloison et se reflète en élargissant l'espace à l'infini. Un environnement à la maison dans le contexte professionnel actuel, hyperconnecté et intelligent

Da una stanza all'altra spazi aperti, luci, ombre, trasparenze. Il gioco degli accostamenti esalta le geometrie essenziali dell'ambiente e della parete, che cresce all'infinito. L'ufficio esprime la libertà di vivere lo spazio personale seguendo il momento. Dall'insieme al particolare, lo stesso progetto.

Open-space layouts, lights, shadows and transparencies lead from one room to the next. Carefully coordinated combinations enhance the geometries of the setting and the wall, which expands into infinity. An office that expresses your freedom to enjoy personal space depending on the needs of the moment. The design is fully coherent, from the overall look to the smallest detail.

D'une pièce à l'autre, des espaces ouverts, des lumières, des ombres et des transparencies. Le jeu des combinaisons exalte les géométries essentielles de l'environnement et de la cloison, qui croît à l'infini. Le bureau exprime la liberté de vivre l'espace personnel en suivant le moment. De l'ensemble au détail, le même projet.

Maniglie, serrature, pensili, contenitori a parete concorrono tutti alla perfetta conformità di ciascun componente ad ogni tipo di esigenza funzionale con un'attenzione sempre rivolta alla cura estetica del dettaglio.

The handles, locks, cabinets and wall-mounted units all contribute to the seamless cohesion of compo-

nents that cater for every functional requirement. The focus is always on the aesthetics of the details.

Poignées, serrures, armoires, conteneurs à parois concourent tous à la parfaite conformité de chaque composant à tout type d'exigence fonctionnelle avec une attention toujours portée au soin esthétique du détail.

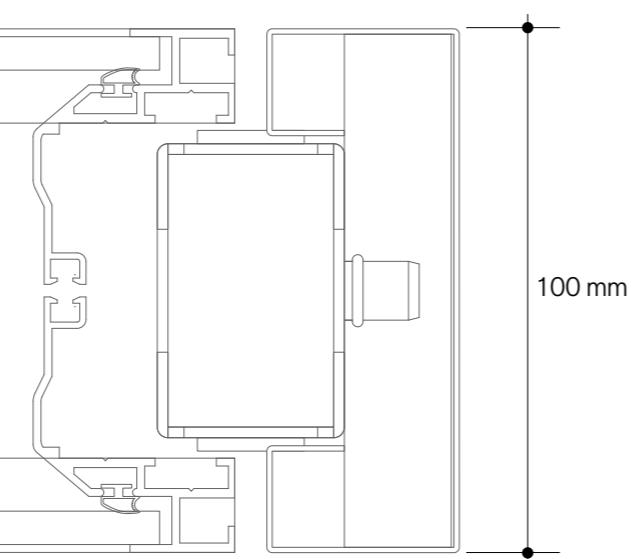

divisoria P100

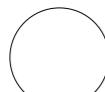

Dividere lo spazio per razionalizzare l'operatività. La parete divisoria "classica" con i profili importanti da 100mm ha tre modalità di rivestimento bifacciale : vetro a filo esterno , cieco o cieco-vetro. Il vetro è stratificato 3+3mm con foglio interno PVB da 0,38mm. La doppia pannellatura cieca è in melaminico classe E1 spessore 18mm, a bassa emissione di formaldeide. Uno spintore permette una regolazione terra/soffitto di +/- 30mm. Una gamma di soluzioni capace di soddisfare ogni esigenza progettuale più tradizionale nel pieno rispetto del singolo.

Divide the space to make your working life easier. The "classic" partition wall with the large 100mm profiles has three types of dual-sided finish: flush-mounted glass, blind or blind-glass. The glass is 3+3 mm laminate, with an internal PVB layer (0.38 mm). The 18 mm blind double pannelling is made from melamine, class E1, with low formaldehyde emissions. The pusher bar allows overfloor/overhead travel of +/- 30mm. A range of solutions that responds to the need for traditional design, while fully respecting the individual.

Diviser l'espace pour rationaliser le fonctionnement. La cloison de séparation « classique » avec les profilés importants de 100 mm, dispose de trois modes de revêtement double face: verre à bord extérieur, aveugle ou aveugle-verre. Le verre est stratifié 3+3 mm avec feuille intérieure PVB de 0,38 mm. Le double panneau aveugle est en mélaminé de classe E1 d'une épaisseur de 18 mm, à faible émission de formaldéhyde. Un poussoir permet un réglage sol/ plafond de +/- 30 mm. Une gamme de solutions capable de répondre à tous les besoins de conception les plus traditionnels dans le respect total du simple.

FENIX NTM® è un materiale innovativo creato per l'interior design, adatto ad applicazioni sia verticali sia orizzontali.

Con una bassa riflessione della luce, la sua superficie è estremamente opaca, anti impronte digitali e piacevolmente soft touch.

Igienico, idoneo al contatto con gli alimenti, facile da pulire, antimuffa e idrorepellente: ecco le caratteristiche che lo rendono particolarmente adatto all'ambiente cucina.

FENIX NTM® is an innovative material created for interior design and suitable for both vertical and horizontal applications.

With low light reflectivity, the surface is extremely opaque, anti-fingerprint and pleasantly soft to the touch.

Hygienic, suitable for contact with food, easy to clean, anti-mould and water-repellent: these are the characteristics that make it particularly suitable for the kitchen environment.

FENIX NTM® est un matériau innovant créé pour la décoration intérieure, adapté aux applications verticales et horizontales.

Avec sa faible réflexion lumineuse, sa surface est extrêmement opaque, anti-traces de doigts et est agréablement douce au toucher.

Hygiénique, adapté au contact avec les aliments, facile à nettoyer, anti-moisissure et hydrofuge: ces caractéristiques rendent ce matériau particulièrement adapté à l'environnement de la cuisine.
